Coming soon myUR Remote Control			✓

*The option to extend the cobots warranty coverage is available as part of the UR PERFORMANCE tier.

Learn, Improve, Adapt

UR CARE

UR CARE includes the essential resources for a successful deployment and continuous operation. Access to myUR opens the doors to personal education and expert support.

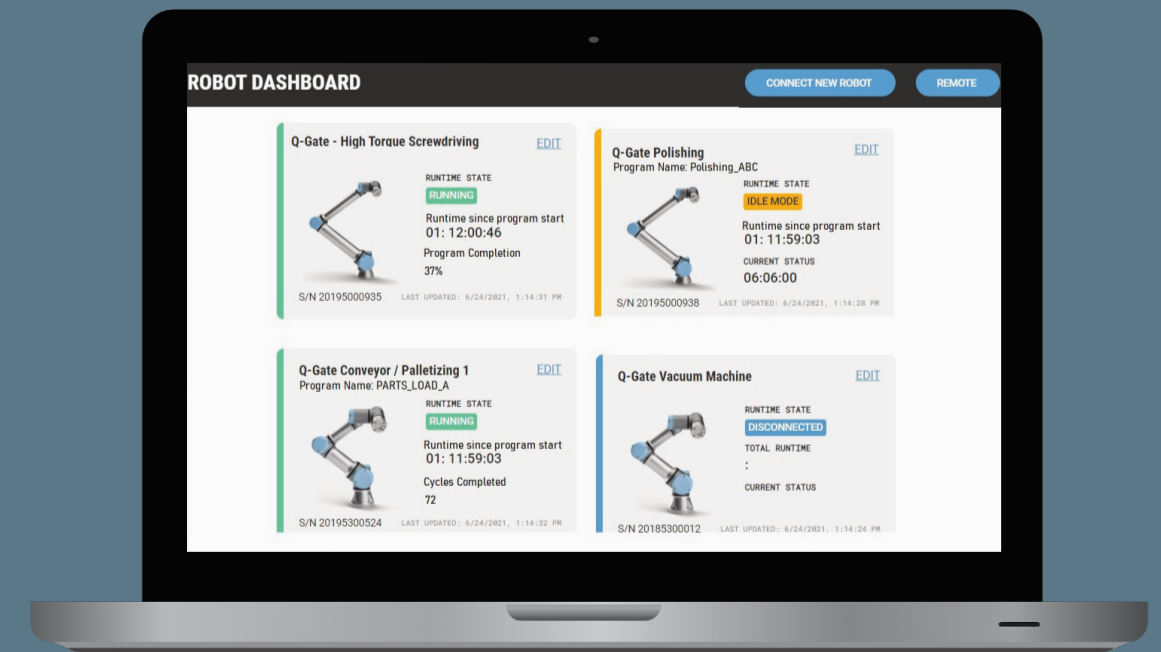

- ✓ **Ticket Management via myUR**
The myUR Ticket Management system provides a customer interface to submit, review and track support tickets.
- ✓ **Customer Success Management**
Customer Success Managers are available to answer any questions and offer assistance.
- ✓ **Robust Training with UR Academy**
Online training modules leverage interactive simulations to guide customers as they learn core concepts, terminology and programming commands.

See, Understand, Manage

UR INSIGHT

UR INSIGHT includes everything in UR CARE and introduces the ability to connect the robot for visibility and analysis of daily activities.

- ✓ **myUR Monitoring**
Track cycle times and cycle counts in real time from a smart device.
- ✓ **Notifications**
Receive notification for robot stops, alarms and application specific events while at the office or on the road.
- ✓ **Dashboard**
Monitor multiple robot workcells on one dashboard and access the dashboard from any networked computer.
- ✓ **Log Report**
Diagnose production inefficiencies and gain a deeper understanding through exportable/downloadable log reports.

Strive, Optimize, Transform

UR PERFORMANCE

UR PERFORMANCE includes everything in UR CARE and UR INSIGHT, plus an annual performance check conducted by an automation expert and the ability to extend your warranty.

Annual Cobot Performance Check

The annual cobot performance report ensures the cobot configuration is setup correctly for the application. Areas of risk, potential wear and possible efficiencies are all highlighted.

UR PERFORMANCE also gives the option to extend the warranty of the cobot up to 36 months.

The extendable warranty requires the annual cobot performance check be conducted annually.

What our customers say

“One person instead of running around monitoring machines can sit in one place and monitor them all”

– President at Machine Shop in CA, USA

“[The notifications feature] saved me 15-30 min. in lost production time, per robot, per week”

– Operations Engineer in AL, USA

Score 4.38/5

“How likely are you to recommend myUR Monitoring to a friend or colleague?”

5 = Very likely
